

WP4

Courses delivery

OUTPUTS

- GREENUS Opening day

At the beginning of the first semester, each University will organize an official opening inviting all the students, university staff, and stakeholders in order to present the project, show the results (Labs, Activities, etc.), and encourage students to enrol to GREENUS courses.

Target groups: teaching staff, administrative staff

- GREENUS courses

The new and updated courses on Waste Management will be delivered for at least three semesters during the lifetime of the project.

Target groups: students

- Students' mobility

A three-week training in Europe will be organized for students. They will be invited to attend lectures and to participate in technical visits at all the three European Universities. Students will be asked to show the results of their stay in Europe during the final conference.

Target groups: students
