

WP2

Eco-Campus pilot project

OUTPUTS

- **Report on Mission Statement and Eco-Campus policies**

The Mission Statement and development of the Eco-Campus strategy are the first and main tasks of the Eco-Campus Committee. A detailed map of internal and external stakeholders will be included in the report, including the ways to interact with them in order to promote the Eco-Campus approach.

Target groups: teaching staff, students, trainees, administrative staff, technical staff, librarians

- **SWOT Analysis Report**

The Eco-Campus Committee of each University will perform a SWOT analysis and deliver the specific targets for each campus. All SWOT analyses will be combined into one final document, and further analysis will be done to highlight common aspects and develop synergies between the participating Universities.

Target groups: teaching staff, trainees, administrative staff

- **Report on the Eco-Campus Action Plan**

Detailed analysis of each initiative that will be carried out in each campus, the role of each participant, the target groups, and the expected impact will be performed. The cost of each initiative will be examined. Potential corrective actions will be described, and how and to what extent each initiative contributed to the Eco-Campus targets set earlier.

Target groups: teaching staff, students, trainees, administrative staff, technical staff

- Dissemination material

- 1) Eco-Campus posters with the key message "It's in your Hand" in both English and Partner national language.
- 2) Eco-Campus newsletters in both English and Partner national language
- 3) Eco-Campus accounts on social media (Facebook, Instagram)

Target groups: teaching staff, students, trainees, administrative staff, technical staff, other

- Guidelines for replicability

After collecting all the reports, they will be analysed in order to create the guidelines for replicability of the pilot project. They should report the results of the project and indicate risks, success factors, and summarize the key points to implement a similar project at other institutions. The guidelines will be distributed to stakeholders, primary schools, Institutions, other Universities and will be published on the project website.

Target groups: external stakeholders
